

AAA Worldwide Expands Shuttle Service to Penn. Casino

This past June, AAA Worldwide Transportation, based in Clinton, N.J., began offering a weekly luxury shuttle service to the Sands Casino Resort Bethlehem from two locations in Clinton. Although the cost is \$35 per person, travelers each receive a voucher for \$30 of free play on the casino slot machines as well as a \$5 food and beverage credit.

"We think there will be strong demand for the service because travelers are really receiving their transportation at no cost given the food and gaming credits they will receive," says Alex J. Mayer, general manager/partner.

"The Sands offers all the latest slot machine games, electronic table games, and great restaurants, including Emeril's Chop House, so it really is a great day out."

In addition to the weekly trips to the Sands, AAA also provides charter service to the casino for non-profit and community organizations or any large groups.

Adept Again Serves Country Music Event

Adept Limousine, based in Mount Juliet, Tenn., recently celebrated its tenth consecutive year working with the Country Music Hall of Fame's Medallion Ceremony, which is held annually in Nashville, Tenn. Don Roy, owner of Adept, says, "It is with great enthusiasm and immense humbleness that Adept Limousine was, for the tenth year, chosen to provide ground transportation for this 'red carpet' event."

Adept owner Don Roy

This year the Nashville area suffered historic flooding the first few days of May, which was just prior to the event. The iconic

Country Music Hall of Fame had 10 feet of water in its lower level, but the memorabilia and important documents were spared. Roy says that he is proud to report that the area is bouncing back after the water damage.

ADEPT LIMOUSINE

Titus Leasing Company has specialized in the financing of vehicles for the luxury ground transportation industry since 1972. We know that all leases — and all leasing companies — aren't the same.

Leasing can be a complex process with lots of bumps in the road — like hidden fees or extra payments in the fine print — so you need an experienced partner to smooth out

the ride without taking you for a ride. We are a self-funded leasing specialist, not a broker or middleman. You *always*

deal directly with us. That's "high performance" leasing with Titus — the full-service transportation equipment leasing company.
